

Dermaglow Product Quick-Tips

Dermaglow - Advanced Eye Therapy

Retail Cost: \$50.00

DermaglowTM NuVectin

Advanced Eye Therapy

Significantly Diminishes the Appearance of Fine Lines, Wrinkles, Dark Circles and Chronic Under-Eye Bags

CLINICALLY PROVEN

- **36% Reduction** in Fine Lines and Wrinkles Around Eyes
- **45% Less** Deep Wrinkles
- **35%** Reduction Dark Circles
- **32%** Reduction Under-Eye Bags
- Enhances firmness to reduce slackening of delicate skin
- Non-Surgical
- Concentrated Formula

Active Ingredients:

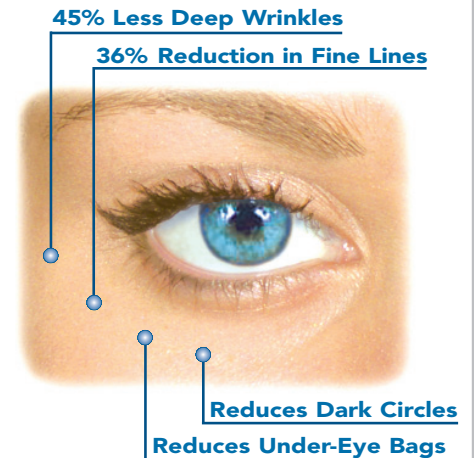

- **Acetyl Hexapeptide-3** - Clinically proven to smooth wrinkles by relaxing facial muscles
- **Palmitoyl Oligopeptide** - Clinically proven to regenerate the skins upper layers by stimulating collagen production, thickening the epidermis
- **Acetyl Tetrapeptide-3** - Clinically proven to restore cytokine balance, (regulates inflammation), in aged skin
- **Dipeptide-2** - Clinically proven to increase lymphatic circulation

Directions: Apply Dermaglow NuVectin Advanced Eye Therapy to clean, dry skin twice daily, morning and evening. Gently massage cream in a circular motion until completely absorbed.

Use sparingly, Dermaglow NuVectin Eye Therapy is a concentrated formula.

Use alone or before applying moisturizer or foundation makeup. Avoid direct contact with eyes.
